The maritime industry is not just a powerhouse of the global economy but also a beacon of sustainability and technological brilliance.

The inaugural Future Maritime Forum, organised by the University of Buckingham Press in partnership with the University of Buckingham, with The International Journal of Maritime Engineering and The Royal Institution of Naval Architects as Media Partners is set to be a game-changer. We are bringing together the trailblazers, the thought leaders, and the experts who will shape the future of the maritime and shipping industry.

This conference is not just a gathering; it's a catalyst for change. From the integration of sustainable fuel sources to novel ship and engine designs and technologies, the embrace of AI, automation, and advanced tracking systems – we are setting sail towards a future that's efficient, environmentally friendly, and technologically advanced.

## WHY DOES IT MATTER?

The maritime sector is a linchpin in the global economy with profound impacts on the environment, technology, and the lives of seafarers.

The decisions we make today will resonate through the waves for decades to come.

## WHO WILL BE THERE?

- Ship Owners
- Fleet Owners
- Engineers
- Environmental Officers
- Technology Producers
- EPC Suppliers
- Legal & Finance providers
- Naval Architects
- Maritime Infrastructure Developers
- Port Authorities
- Policymakers
- Researchers
- Convergence of minds committed to a sustainable and technologically advanced maritime future.

## WHAT TO EXPECT?

### AN UNPARALLELED OPPORTUNITY FOR NETWORKING, BUSINESS COLLABORATION, AND KNOWLEDGE SHARING.

The specific agenda for the first event will be released shortly but topics of discussion for across upcoming FMF events will include:

- Novel maritime technologies
- Sustainable fuel sources and decarbonisation
- Hydrogen, methanol, and ammonia derivative fuels
- Scaling up fuel supplies and infrastructure
- Regulatory reforms for reducing emissions
- IoT applications for port management, navigation, and vessel monitoring
- Satellite and block chain technologies for real-time tracking and security
- Advancements in maritime AI for safety and sustainability
- The future of fully autonomous and remotely controlled vessels for improved safety and efficiency
- Integration of machine learning, AI, virtual reality (VR) and augmented reality (AR) for training and maintenance

## GOLD PARTNERSHIP 1X EXCLUSIVE SPONSORSHIP

Benefits include:

- Exhibition stand – 1 table, 2 chairs, power point
- 1 Representative on the forum industry advisory board
- 1 Industry chairing position
- 1 Stand alone presentation opportunity (15 mins)
- Opportunity to publish the presentation in the international journal of maritime engineering (ijme)\*
- 4 Delegate passes (in addition to speaker pass)
- Receive attendees list one week before the event
- 1 Animated banner and hyperlink on the forum website
- Logo on forum's website prior and during the forum, on e-campaigns and social media and on stage
- 100 Words company description on the event website, hyperlinked with partner website
- 1 Pop-up banner in coffee and lunch area (banner provided by partner)
- Partner logo featured on forum's badges and id cards alongside the forum's logo
- Partner logo featured on all forum's banners on site
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

## SILVER PARTNERSHIP 4 NON COMPETING COMPANIES

Benefits include:

- 1 Stand alone presentation opportunity (15 mins)
- 1 Representative on the forum's industry advisory board
- Opportunity to moderate a session
- Opportunity to publish the presentation in the international journal of maritime engineering (ijme)\*
- 3 Delegate passes (in addition to speaker pass)
- 1 Exhibition stand – 1 table, 2 chairs and a power point
- Receive attendees list one week before the event
- Logo, 100 words company description and 1 animated banner with hyperlink on the forum's website
- Partner logo featured on all e-campaigns, social media messages, and on the reverse of the audience badges
- Partner logo featured on all forum's banners on site
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

## BRONZE PARTNERSHIP 6 NON COMPETING COMPANIES

Benefits include:

- 1 Standalone industry presentation (15 min)
- Opportunity to publish the presentation in the international journal of maritime engineering (ijme)\*
- 1 Exhibition stand – 1 table, 2 chairs, power point
- 2 Delegate passes (in addition to panel speaker)
- Receive attendees list one week prior the event
- Logo (hyperlinked), 100 words company description and 1 animated banner and on the forum's website
- Partner logo featured on all e-campaigns, social media messages, and on the reverse of the audience badges
- Partner logo featured on all forum's banners on site
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

**GOLD PARTNERSHIP  
£5,500 + VAT**

**SILVER PARTNERSHIP  
£3,500 + VAT**

**BRONZE PARTNERSHIP  
£2,500 + VAT**

## EXHIBITION PACKAGE

Benefits include:

- 1 Exhibition stand – 1 table and 2 chairs
- 2 Delegate passes
- Receive attendees list one week before the event
- 1 Animated banner on the forum's website
- Exhibitor logo (hyperlinked) and 100 words company description featured on the forum's website
- Exhibitor logo featured on the forum's e-campaigns and social media posts
- Exhibitor logo featured on all forum's banners on site
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

## MEDIA PACKAGE

Benefits include:

- 1 Delegate pass with full access to the forum's auditorium, all the presentations, discussions, and the forum's exhibition site
- 1 Animated and hyper linked banner and hyperlink on the forum website
- 1 E-campaign to the forum's registered attendees prior the event (text and logo provided by company)
- Receive attendees list one week prior the forum
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

## DELEGATE PACKAGE

Benefits include:

- 1 Delegate pass with full access to the forum's auditorium, all the presentations, discussions, and the forum's exhibition site
- Receive attendees list one week prior the forum
- Networking: 1 light lunch and 2 coffee breaks
- CPD points awarded

**EXHIBITION PACKAGE**  
**£1,900 + VAT**

**MEDIA PACKAGE**  
**£800 + VAT**

**DELEGATE PACKAGE**  
**£500 + VAT**

*\*The International Journal of Maritime Engineering (IJME) is a leading marine engineering and technology publication and provides a forum for the reporting and discussion on technical and scientific issues associated with the design and construction of marine vessels. Contributions in the form of papers and notes, together with a discussion on published papers are welcomed.*

*The IJME is published four times a year as the Transactions of The Royal Institution of Naval Architects and is available on subscription to members, and non-members.*
